

February 12, 2018

Clothing INC. has emerged in our community as a leader in meeting the crucial need of providing clothing for those in need. Patrons who visit Clothing INC are not only assisted with their clothing needs but, are also met with compassion, encouragement, and enthusiasm for service that is second-to-none. This agency is the absolute pinnacle of helping organizations, always going far beyond their calling and lifting-up those most in need.

As an emergency, temporary homeless shelter, our organization is challenged with the need to address multiple concerns for each of our guests, sometimes very expeditiously. Many of our guests walk-in to our facility at their very lowest and have a substantial list of needs in order to alleviate the barriers that led to them being homeless. Once we register homeless guests for a bed in shelter, we then evaluate the individual's needs for clothing that will assist them in withstanding the elements. Clothing INC has graciously filled that vital need for our homeless guests countless times.

Clothing INC has supported our homeless guests for an extended period, and served as the sole source for clothing needs of our homeless guests. The organization possesses an unrelenting compassion that serves our entire community and compliments our efforts of providing emergency shelter, better than we could ever ask for! Clothing INC is by far, more than a clothing supplier. Every member of the organization provides guests/patrons with encouragement, compassion, and unparalleled service!

Incredible opportunities have arisen and circumstances aligned for our organization, the Isabella County Restoration House, to join Clothing INC under the same roof, in a common facility. Collaboration and cooperative endeavors are now endless as we partner to serve the most vulnerable of Isabella and adjacent counties. Clothing INC has extended offers to guests of our shelter to not only equip themselves with the clothing that they will need to face the elements but, also an opportunity to volunteer and gain applicable work experience. This has proven a very valuable service to our guest population and yet another truly beneficial service offered by the great organization.

Please consider this correspondence to serve as my full endorsement of Clothing INC as a community partner, and a statement of full support for any opportunities that may enhance the organization's
